Brainstorm & Idea Prioritization Template: Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process that leads to problem solving.

Problem Statement: How might we provide a secure, centralized, and laptop-friendly contact management system for professionals?

Brainstormed Ideas & Grouping:

1. Mobile app contact sync (Low feasibility for desktop users).
2. Local JSON file storage (Poor security and scalability).
3. RESTful Node.js Backend with MongoDB & JWT Authentication (Selected High-Impact Idea).

Idea Prioritization Matrix: • High Importance & High Feasibility: Secure User Authentication via JWT & bcrypt, Full Contact CRUD Operations, Dynamic Tag-Based Categorization & Real-time Search. • Low Priority: Direct social media scraping, offline peer-to-peer file sharing.
